

ART LESSON G: MAKE A COLLAGE INSPIRED BY MATISSE

Learning Target: I can compose a picture using shapes

You will need:

- This is a photo of the French artist, HENRI MATISSE, in his studio making paper cut-out pictures. Look at some of his pictures below.
- Make your own paper cut-out picture using coloured papers or paper that you paint or colour yourself. Matisse painted his papers so that he got the colours that he wanted.
- Look at all the different colours and shapes that Matisse uses. He puts rectangular shapes for the background with smaller shapes on top. Some of his pictures were as big as a wall!

Send a photo to school and keep your work
