

# ART LESSON I: MAKE A PAINTING USING SHAPE

Learning Target: I can identify and use regular and irregular shapes

You will need:

- Here are some examples of paintings by the French artists Robert and Sonia Delaunay.
- Look at how they have used shapes to make their compositions (the way things are placed on the page). This is called **ABSTRACT ART** – that means that you do not try to draw familiar things, but just enjoy using colour, shape and marks.
- Make an abstract picture using one or several shapes (circle, square, triangle).
- Colour with bold, bright colour using paints, crayons or pencils.

**\*Send a photo to school and keep your work\***
